

Adding/Switching Pharmacies in Medicare Plan Finder

To find and compare plans for your clients, it's important to add the pharmacies they use to their plan search. Adding the right pharmacies will allow them to see if their pharmacies are in a plan's network and estimate their drug costs.

Adding pharmacies

On the **"Pharmacy selection"** page, you can select up to 3 retail pharmacies or 2 retail pharmacies and a mail order pharmacy. If you didn't select a mail order pharmacy when you started your search, you can choose to add it by checking the box on the "Pharmacy selection" page as shown outlined in red below. You can also unselect the mail order pharmacy box if you no longer wish to use that option.
