

Adding Drugs & Pharmacies in Medicare Plan Finder

To find and compare plans, it's important to add your current drugs and pharmacies you would use to estimate your drug costs. Medicare Plan Finder has made it easier to update your information so you can get helpful estimates to pick a plan that meets your needs.

Add drugs

If you already have an online Medicare account, you can log in to update your saved drug list. We'll show the drugs you filled in the last 12 months from your claims to help you update your list quickly and easily.

Follow these steps to use the quick add feature:

1. Select "Add Recently Filled Drugs."
2. Review the list of drugs you filled in the last 12 months. You can select some of the drugs from that list to add to your drug list, or add them all at once.
3. Select "Next." You'll then be asked to confirm that your saved list matches the drugs you're currently taking.

Tip: The quick add feature includes all the prescriptions you filled, including prescriptions you filled just once, like an antibiotic if you were sick. Be sure to review the list when using this quick add feature. If you click "Select all drugs," it will add all of them to your saved list and include them in drug cost estimates for each plan result.

Confirm your drug list

Be sure your drug list is up-to-date to get the most accurate estimate of your drug costs when looking at plans.

Drug	Package Type	Quantity	Frequency
Actimmune 2000000unit/0.5ml solution	0.5ml vial (sold in pack of 12)	17	Every month

Add recently filled drugs

These are all the drugs you filled in the last 12 months. If you want to see their costs when looking at plans, select them, and then select "Next" to add them and review your drug list.

Drugs already on my drug list:
Actimmune 2000000unit/0.5ml solution

Add these drugs to my drug list:

Select all drugs

Prednisone 10mg tablet

Lipitor 40mg tablet

Nexium 40mg capsule delayed release

[Next](#)

To update your drug list, select:

- “Remove drug” to delete a drug you don’t take anymore.
- “Edit drug” to change a drug’s dosage, quantity, or frequency.
- “Find & Add Drugs” to include a drug that’s not on your recently filled drugs list.

Once you’re done adding all drugs, select “Done Adding Drugs” to move to the next step, selecting your pharmacies.

Confirm your drug list

Be sure your drug list is up-to-date to get the most accurate estimate of your drug costs when looking at plans.

If you’re new to Medicare and don’t have a claims history yet, you can still create an account and build your drug list so you can save it for later.

If you don’t have an online Medicare account, you can continue without logging in and still add your prescription drugs, compare plans, and complete an enrollment. However, you won’t be able to save your drug list or find it later. If you’re not logged in when using Medicare Plan Finder, you’ll need to add your drugs each time you return to Medicare Plan Finder.

Add pharmacies

Drug costs can change based on which pharmacy you use to fill your prescription and how that pharmacy works with a plan. The pharmacies you choose are used to show your estimated drug costs in each plan. Once you’re done adding your drugs, select the pharmacies you would be willing to use. On the Pharmacy selection page, you can pick up to 5 retail pharmacies or 4 retail pharmacies and a mail-order pharmacy.

Tip: You don’t have to select the pharmacies you currently use – you can pick ones you would be willing and able to use to help find the lowest cost plan.

You can search for pharmacies in your ZIP code, or you can enter your complete address or the name of the pharmacy to narrow your search results. You can also filter by distance to find pharmacies that are closer or farther away.

[← Back to drug selection](#)

Choose up to 5 pharmacies

Drug costs vary based on the pharmacy you use. Choosing pharmacies lets us show you your estimated drug costs, helping you pick the lowest cost plan. You don’t have to choose the pharmacies you currently use.

ENTER YOUR COMPLETE ADDRESS OR ZIP CODE NAME OF PHARMACY (OPTIONAL)

Mail-order Pharmacy
Add both mail-order and retail pharmacies to find the lowest cost.

Add Pharmacy 

Once you add a pharmacy, you'll see it in a blue box at the bottom of the page. The blue bar shows all of the pharmacies you've added. If there's an empty box, you can keep adding pharmacies until all of the boxes are filled. Once you're done adding pharmacies, select "Done" to see your plan search results.

To remove a pharmacy from your list, unselect "Pharmacy Added" or click the "X" in the top right corner of the pharmacy you no longer want in the blue bar at the bottom of the page.

Switch pharmacies while viewing plans

Your estimated costs may change if you pick different pharmacies. In Medicare Plan Finder, you can select different pharmacies to see if they can lower your costs. **Remember:** You'll need to fill your prescriptions at the pharmacy you chose to get the prices you see while viewing plans.

To switch pharmacies from the Plan results page:

1. Select "Edit your drugs & pharmacies" at the top of the page, under the location you picked for your search. It will take you to "Confirm your drug list."

There may be separate drug plans available with lower drug costs. [Tell me more.](#) [View 27 available drug plans](#)

19 Medicare Advantage Plans available

Carroll, MD [Change location](#)

 **No filters selected**

2. Select “Done Adding Drugs” to go to the page to choose or change your pharmacies.

Note: You don’t have to make any changes to your drug list if it’s still correct.

Confirm your drug list

Be sure your drug list is up-to-date to get the most accurate estimate of your drug costs when looking at plans.
